PERSONNEL RESPONSIBLE FOR CONDUCTING INSPECTION George R. Tetreault, Jr.

TEDCO has completed all agreed-to reclamation of the subject leases. All drill hole markers have been removed. All roads built on Haystack Mountain have been reseeded and permanently blocked by heavy boulders.

Lease -8396 was the site of the old Federal Mine operated prior to TEDCO's lease. In addition to the required reclamation, TEDCO agreed to block both adits of this mine and clean up some other areas that presented a hazard to the allottees.

Both adits have been permanently blocked and an area which water ponded, due to a collapsed stope, was reinforced to prevent such ponding in the future (see pictures).

Will conduct a gamma level study on a future inspection.
